

## **ADINJC Benefits to being a Local Association or Group Member.**

If your local association joins us **ALL** the members get the benefits of membership at no extra cost. That's just £150 to have **EVERY** member secure. We have been helping local associations for over 40 years: They say they join because we offer them:

- **A dedicated team:** Of ADIs who work as volunteers on your behalf and who are elected by members at the AGM. We don't run a business and we don't pay large salaries or shareholders.
- **Assistance and Guidance:** We have a dedicated help line 7 days a week. We have a panel of working ADIs with vast knowledge and experience of the industry, ready and willing to help your members. They cover LGV, driver CPC, PSV, Motorcycle and B+E training, standards check advice, instructor training and more.
- **Legal Advice:** We have our own solicitor who is prepared to chat with any member we consider needs legal advice. Terms and conditions for driving schools to use.
- **Information Exchange:** Through our monthly newsletter, our website and regular posts on social media. Breaking news via our popular email news alerts. Your association can link to our website and use our members section of our newsletter to promote yourselves. We can help your association with setting up a website.
- **Free meetings throughout the year:** Regular meetings with guest speakers that representatives from your association can attend. This gives you networking opportunities with other local associations
- **Representing Your Views:** We collate your views and then use them as we have consultative status with the DVSA and other agencies.
- **CPD and Training Opportunities:** We offer valuable nationwide workshops at discounted prices for members. We can create a tailor made event for your local association.
- **Discounts:** Half price copies of adiNEWS, the leading industry magazine, produced monthly. Special deals on industry related products.

- **National Conference:** We hold a national annual conference where you can air your views to a DVSA representative or you can purchase all the up to date ADI educational tools plus many stalls to cater for all your needs.
- **Value for Money:** We are not profit making. Any monies raised above our running costs are reinvested into the ADINJC to improve the service we offer to our membership.

**Last but not least they say they like our friendly, personal approach!**
